

# Senior Claim Representatives

**Client Type:** Life Insurance Organization

**Talent Partnership Relationship:** 5 Years

**Team Size:** 35 Contingent Consultants

- In 2022, an East coast based nationwide life insurance company reached out to Jacobson with their need to fill multiple Senior Claim Representative roles. The organization was growing rapidly while simultaneously facing a challenging market for both retention and recruitment. Having partnered with Jacobson fairly regularly throughout the previous five years, they were confident in our ability to provide qualified, committed professionals to fill their vacancies.
- The success of the initial placements lead the company to rely on Jacobson for roles in their underwriting and actuarial departments, as well as additional claims professionals.
- In total, Jacobson facilitated 35 contingent hires in the first year of our partnership and we are on track to exceed that number the following year.
